Facilities and Equipment - Minimum standard equipment as required by regulations

	Yes	No
Anklets, or material to make them? (may be on bird)	<input type="checkbox"/>	<input type="checkbox"/>
Jesses, or material to make them? (may be on bird)	<input type="checkbox"/>	<input type="checkbox"/>
Leash, or material to make it? (may be on bird)	<input type="checkbox"/>	<input type="checkbox"/>
Swivel? (may be on bird)	<input type="checkbox"/>	<input type="checkbox"/>
Bath pan? (may be with bird)	<input type="checkbox"/>	<input type="checkbox"/>
Perch suitable for each raptor held? (may be with bird)	<input type="checkbox"/>	<input type="checkbox"/>
Weighing device in increments suitable for the species?	<input type="checkbox"/>	<input type="checkbox"/>
Mews?	<input type="checkbox"/>	<input type="checkbox"/>

May be indoor or outdoor. The primary consideration for raptor housing facilities whether indoors, in a residence, or outdoors is protection from the environment, predators, or undue disturbance. The management techniques may make use of both indoor and outdoor spaces and include weathering, housing in the home, indoor box, indoor perching, indoor mews, outdoor separate structure, and more.

WAC 232-30-410, 232-30-420, 232-30-440, 232-30-450, 232-30-460

Paperwork - Not applicable for facility inspections

State falconry permits (valid). Permit #: _____ Exp Date: _____

State permit is a wallet-sized card. Legible copy is acceptable.

WAC 232-30-130

Birds - Not applicable for facility inspections.

If no birds are currently held, skip this section.

Falconry Bird #1 Species: _____

Each Peregrine, Gyrfalcon, Harris' Hawk, or Goshawk must also have a leg band or paperwork exempting. Each captive bred bird must be banded.

Microchips may be substituted for bands. Band or Microchip #: _____

3-186A possession form or copy?

Falconry Bird #2 Species: _____
Each Peregrine, Gyrfalcon, Harris' Hawk, or Goshawk must also have a leg band or paperwork exempting. Each captive bred bird must be banded.
Microchips may be substituted for bands. Band or Microchip #: _____

3-186A possession form or copy?

Falconry Bird #3 Species: _____
Each Peregrine, Gyrfalcon, Harris' Hawk, or Goshawk must also have a leg band or paperwork exempting. Each captive bred bird must be banded.
Microchips may be substituted for bands. Band or Microchip #: _____

3-186A possession form or copy?

Use another page if more birds are possessed.
Birds may not be available for inspection if they are hunting, lost, breeding, hacked, sick, temporarily being held by others or at another location. Records and/or photographs may satisfy band and microchip information if needed.
WAC 232-30-140, 232-30-151, 232-30-152, 232-30-153, 232-30-230, 232-30-310

Additional birds

Additional birds, native and exotic, may be present if birds are held temporarily for other falconers, rehabilitation, propagation, abatement, via other permit, when assisting WDFW with raptor management or research. These are not subject to inspection under the falconry permit inspection and may not have 3-186 papers.
WAC 232-30-470, 232-30-510, 232-30-530, 232-30-560

INSPECTION STATEMENT

Check Applicable Box: Approved Re-inspection Needed For Approval

Inspector's Name (and ID or Badge # if state official) Affiliation (WDFW or WFA)

Inspector's Signature Date

Inspection criteria are based on the Washington State Falconry Regulations and only validate the minimum standards as required by regulation. Approval only confers compliance according to the minimum regulation standards and does not confer a label of excellence or approval to the inspector's preferences for raptor management. Additional suggestions may be given for improvements or optimizations, particularly to an Apprentice Applicant and their sponsor, and have no impact on inspection approval.
